About me

I am more than just a developer; I always seek ways to achieve my goals and improve. I am eager to keep growing both professionally and personally, staying adaptable to industry trends and challenges.

Work Experience

Visionary iGaming, Technical Support Agent

Oct 2024 - Currently

- Responsible for the maintenance and repair of equipment, managing tickets, and addressing assigned cases. Provide hardware and software support, including troubleshooting, installation, and updates. Handle tasks related to cabling, physical connections, and logical network setups, ensuring optimal system performance and connectivity.

Transportelo con Dave, Web Developer (Freelancer)

Apr 2024 to Jul 2024

- Developed a web-based system for a transportation company using ASP.NET, enabling clients to interact and request services online. Contributed to both backend development and database design, utilizing SQL Server for data analysis and creation. Additionally, designed mockups for the front-end, ensuring an intuitive and user-friendly interface.

Grupo Bimbo, Internship

Oct 2023 to Dec 2023

- Utilized Python and the Pandas library to extract, analyze, and modify data in Excel templates. Developed applications using Microsoft Power Platform, specifically Power Apps and Power Automate, to streamline and automate processes previously managed in Excel, significantly improving efficiency and accuracy in data handling.

Education

Cybersecurity Engineering, Universidad Fidélitas

2024 - Currently

Mid-Level Technician in Software Development Program, Colegio Vocacional de Artes y Oficios (COVAO)

2021 - 2023
